**Subject:** Natural Gas Power Plant - Mississauga

Dear Friends,

I appreciate our community's concerns regarding the status of the natural gas power plant in Mississauga East-Cooksville.

Our government remains committed to ensuring that this plant be moved to a more appropriate location as previously announced in September. The recently appointed Ontario Minister of Energy issued the following statement today:

“The Ontario government is committed to relocating the natural gas plant originally planned for Mississauga. The government will work with the company to find a suitable location for this plant. More information will become available as discussions progress.” **Hon. Chris Bentley, Minister of Energy.**

As you know, our government is also committed to developing more rigorous controls in determining future locations for gas-fired power plants.
