

Mississauga Residents' Associations Network

At Home in our Urban Environment

MIRANET is the City-wide network of Ratepayer and Residents' Associations (RAs) in Mississauga. We work collectively in a positive and constructive manner with the City and other levels of government to promote the interests of Mississauga residents and contribute to the City's success.

Our network model encourages distributed leadership and ongoing cooperation among residents' groups in order to exchange information, share best practices and foster community engagement in the public decision-making process.

Our website is designed to provide citizen-oriented support for residents' groups, and is a resource for starting a residents' association.

A RESIDENTS' ASSOCIATION CAN...

- Provide a voice for your community on local concerns
- Mobilize citizen support to get action on issues
- Serve as a sounding board for politicians to explore ideas
- Preserve and enhance property values
- Foster a community identity and a sense of belonging

We're here to help get you started!
